

K-Seal™

No Need To Drain Or Flush...

Simply Shake, Pour And Go!

- One step permanent repair
- Mixes with all types of anti-freeze & coolant
- Continues to work within the coolant system & find and repair any new or additional leaks
- Repairs are permanent! Even if fluids are drained later
- Positively will not clog or damage any part of the cooling system
- One 8 oz. bottle repairs cooling systems up to 20 quarts (typically 12 cylinders)
- One 16 oz. heavy duty bottle repairs cooling systems up to 50 quarts
- The best value in the industry
- The easiest to use in the industry
- Works on hard plastic as well
- Save shelf space and inventory dollars . . . K-Seal™ is a one stop shop!
