

## DESCRIPTION:

PEAK® AUTOMATIC TRANSMISSION FLUID is formulated with select highly refined base oils and specially balanced additives to meet the demands placed on automatic transmissions. PEAK® AUTOMATIC TRANSMISSION FLUID contains special friction modifiers that provide smooth lock-ups required by both General Motors and Ford. Its high viscosity index permits use over a wide temperature range by providing excellent low temperature fluidity while retaining the desired viscosity at high temperatures.

## BENEFITS:

- Helps provide smooth shift performance where DEXRON® III or a MERCON® fluid is specified
- Designed to provide outstanding high temperature oxidation resistance
- Offers excellent protection against corrosion, wear and rust
- Compatible with automatic transmission components such as elastomer seals and plastic parts

## APPLICATION:

PEAK® AUTOMATIC TRANSMISSION FLUID is recommended for use in automatic transmissions of General Motors, Ford (except those that specify Ford M2C33-F Type F fluids) and other U.S. and import vehicles requiring DEXRON III, DEXRON IIE, DEXRON II and MERCON ATF. It may also be used in Allison automatic transmissions, including those that require C-4 fluids, and Caterpillar transmissions requiring TO-2 performance.

Always consult your owner's manual for automatic transmission fluid requirements.

## SHIPPING INFORMATION:

Pack	6/1 Quart	3/1 Gallon	5 Gallon Pail	55 Gallon Drum
Unit Weight (lbs.)	2.1	8.15	40.6	450
Case/Pallet Weight*	12.3/2,108	24.45/1,517	1,755.2	1,850
